

PRE-MOISTENED WIPE WITH LOTION TO IMPROVE DISPENSING
ABSTRACT OF THE DISCLOSURE

5 A lotion suitable for use in a disposable wiping article is disclosed. The
lotion can be used to wet pre-moistened wet wipes, and is particularly suited for
use in pop-up dispensing systems of disposable wet wipes, such as baby wipes.
The lotion provides for improved reliability of pop-up dispensing while
maintaining adequate wet impression. The lotion is an aqueous solution
comprising a surfactant selected from the group consisting of phosphate-
quaternary amine compounds and non-ionic surfactants, and effective amounts of
10 a second ingredient selected from the group consisting of non-cellulosic organic
water soluble polymers and alkoxylated alcohols. Other ingredients such as
preservatives and fragrances can also be included in the lotion.
